Response to Office Action of 08/09/2006  
Page 2 of 10

**AMENDMENTS TO THE SPECIFICATION**

Please replace the paragraph beginning on page 11, line 14 with the following amended paragraph:

The present invention is not limited to the foregoing embodiments but can be variously modified. For example, elastic resins 150 may be laminated on the inner surface of the cylindrical portion 31 so that the laminated elastic resins 150 come into close contact with the outer surface of the shaft 3. In this case, by forming the laminated elastic resin 150 and resin for making the cover 23 in two colors, the device can be manufactured more easily.
